Female Genital Mutilation (FGM): A multidisciplinary approach to the presentation, investigation and prosecution

This webinar aims to examine the essential aspects of an acute presentation of female genital mutilation (FGM) in a child and the criminal investigation, whilst ensuring the welfare of the child remains paramount. In this session, key speakers will cover the clinical aspects of the child's presentation, assessment and clinical care, safeguarding the child, along with aspects of the police investigation and evidence gathering. It will also cover the case building, charging decision and prosecution. This is a joint meeting run in conjunction with the British Academy of Forensic Sciences (BAFS).
