MURDER INVESTIGATIONS & THE EXPERT WITNESS: MAINTAINING THE MORAL COMPASS

John F.
Kennedy

John has helped pioneer a number of forensic processes involving complex comparison and reverse projection work, which are now used by law enforcement agencies all over the world. He has been involved in a number of globally prominent cases including: James Bulger, Birmingham bombings, numerous terrorist cases in Northern Ireland, assassination of Prime Minister Hariri in Lebanon, Saddam Hussein tapes, Iraqi kidnapping and assassination, the killing fields of Sri Lanka and Boko Haram, as well as numerous high-profile homicide cases. He was instructed by the coroner, on behalf of all the legal teams representing the 92 Hillsborough families, in relation to the recent inquests.
